APPLICANT'S TELEPHONE INTERVIEW SUMMARY

On June 19, 2007, Applicant's attorney, Erik Osterrieder, returned Examiner Callahan's voice mail in regard to Examiner's Amendment proposed by Examiner Callahan. During the June 19, 2007 telephone discussion with Examiner Callahan, Applicant's attorney agreed to the following: (1) amendment of the specification under the Summary of the Invention section to replace references to claim 1, claim 9 and claim 18 therein with the respective preamble language for the same since the Office objected to reference to particular claim numbers in the specification itself; and (2) amendments to claims 21-29 in regards to the element "identifying that the intended fingerprint and the current fingerprint are *different in a material way*" to become "identifying that the intended fingerprint and the current fingerprint are *materially different*" in order to avoid 112, ¶ 2 indefiniteness objections that Examiner Callahan said the Office would otherwise send through another office action. Examiner Callahan and Applicant's attorney agreed that the foregoing amendments are still clearly supported at page 5 of the specification.

As a result of the foregoing forming the sole basis of the Examiner's Amendment, which Applicant authorized and to which Examiner Callahan agreed, Applicant respectfully submits that the application is in condition for allowance. Applicant invites the Office to freely reach Applicant's attorney at the contact information found in the signature block below.

Respectfully submitted,
